| <input type="checkbox"/> Sole re-gluing | <input type="checkbox"/> New laces |

Additional notes:

Please complete this form in full and include it with the boots sent for repair.

The repair turnaround time is approximately one month, depending on the type of repair required. The repaired boots will be returned after payment has been received.

Please ensure that the boots are sent in clean condition. In the case of heavy soiling, a cleaning fee of €20 will be charged.

Please do not include any accessories with the boots when sending them for repair.

We undertake repairs exclusively on boots manufactured by us. We reserve the right to refuse repairs that are not technically feasible. If you are unsure whether your boots can be repaired, please contact us in advance – we will be happy to assist you.

All repairs are carried out with the precision, care, and craftsmanship you expect from Euroboots, ensuring that your boots are returned to you in the best possible condition.
